

This week we finish Luke and dive into Acts!

Hey reading community,

You have come to the end of Luke and the end of the Gospel accounts—or have you? We picked Luke to be read last because it's actually the first half of the unified work called Luke-Acts.

Acts is an epic narrative that recounts the beginning of the Church. However, this week we focus on Luke's account of Jesus' ministry and the fateful events that led to Jesus' execution. Luke is an intricate Gospel narrative interwoven with Old Testament reference and allusion, and it's important to read it carefully.
